JUNE 20th, 1881. Messrs. Gano Henry, Dr. Fuqua, E. L- Foulks, and gentlemen of the National Greenback party:

unsought by me. It is well known by meny prominentanen of the party, who solicited me to make the race, that an explanation upon my part in regard to my surrounding circumstances was sufficient to show that I front and take my place lu the ranka and stand in defense of the party that would impose this duty upon me, but we need some one who is alle to upon a more anitable person, who can more conveniently make the race. The party should by all means be represented and I would uppreciate the opportunity of canyassing with the intelligent candidates of the opposing parties were it poorlibe, since they are both nice gentlemen; but since I am compelled to remain at home. I hope the compilities will
